

MERLYN™

THE COLLECTION

At MERLYN, our goal is to make a positive impact on the planet by taking various actions that are environmentally friendly. Planet Mark, a well-known sustainability certification body, has verified that we have calculated, lowered, and offset for our carbon footprint. We continue to work towards our goal with ongoing initiatives such as the electrification of our company vehicle fleet.

In line with our commitment to reduction in annual carbon footprint of 5% we have taken steps by collaborating with our offset partner, Ecologi.

In doing so, we are delighted to support a wind farm in Sri Lanka, a venture that aligns with our goal to drive environmental improvements and create a better planet.

Please be aware our cover is non recyclable.
Remove cover before recycling the internal pages.

MERLYN™

it's all about the experience

Introducing The Collection Brochure, thoughtfully curated to showcase the very best of MERLYN's versatile product range under one cover.

At MERLYN, our commitment to innovation, quality and design permeates throughout this product offering.

This unique approach has helped us to become the leading brand for shower enclosures in the UK and Ireland.

When you choose a MERLYN shower, now conveniently portrayed in this New Collection Brochure, you are investing in one of the most trusted shower brands, backed up by the MERLYN Guarantee giving you total peace of mind.

Thank you for choosing MERLYN.

Sincerely,

The MERLYN Team

Sliding Door Low Level Access

Create a fully inclusive bathroom environment with the low level access sliding door, thanks to its minimal bottom rail. Available in the same sizes as the standard Ionic Express Sliding Door.

features

- » Height 1900mm
- » Easy-fit system
- » Door Handed
- » No bottom rollers - bottom glide system instead
- » Push-button door release for easy clean
- » Rollers pre-assembled on the top of the door
- » Allows easy access for users on both tray and wetroom situations - no more stepping required.
- » Adjustable fin seal for increased water retention, allowing the seal to always be flush with the floor/ tray

IONIC | Source

Exceptional quality

Ionic Source is our exciting range of affordable 6mm shower enclosures. This range has been developed to offer our customers an exceptional quality shower enclosure at an affordable price.

EASY-FIT STEPS

Step one: Align the horizontal and vertical profiles together.

Step two: Slot the horizontal profile and screws into upright using guide channel until flush.

Step three: Secure screws into position using dedicated access holes.

MERLYN™ Wetrooms

Solution for every situation

Wetrooms are a modern and elegant option for your bathroom. With MERLYN Wetrooms, you can enjoy the best of both worlds: versatility and luxury. A MERLYN wetroom can transform the bathroom to a more clean and luxurious space.

How it works: To make up a walk In wetroom to fit on a 1200mm x 800mm tray or area floor space. You pick panel A (700mm) and panel B (800mm), this also includes the recommended 500mm minimum opening for the Walk In.

Single Pivot - Folded Inwards

8 Series Curved Wetroom

The Curved Wetroom panel follows the contour of your offset quadrant tray, giving a softer finish. The extra length of the curved panel also deflects water spray inwards. This frameless design boasts Mershield Stayclear™, ensuring peace of mind with the MERLYN Lifetime Guarantee.

features

- » Height 2015mm including rail
- » Suitable for wetroom and shower tray application
- » Can be used with 800mm or 900mm trays
- » Hinged swivel panel swings inwards only to deflect shower spray
- » Minimalist frameless design
- » Reversible

WHY CHOOSE OUR NEW 8MM WETROOM PANELS FOR YOUR BATHROOM

Simple yet stylish, our new 8mm Wetroom Panels offer you the choice to mix and match many combinations of shapes and sizes to any space you require. At MERLYN we understand that every wetroom space is different, which is why we have designed a modular system of wetroom panels that can be combined to fit any area. We have broken the range down to 17 key components with additional fitting options which you can build together to make up the full wetroom of your choice. It's as simple as A, B, C.

Colour Options...

Standard Chrome

BBR = Brushed Brass

MB = Matt Black

BBZ = Brushed Bronze

Round elegant bracing bar

*Fluted glass - with low iron consistency for that clear glass finish

*Our fluted glass is an alternative option to our standard clear glass

Strong and sturdy construction

No PVC seals

8mm Squared Framed Wetrooms - Black

Our Framed Wetroom Panels are the best to arrive onto the scene. Creating a feature of your showering space, a Showerwall or Walk-In feature, this statement piece gives your bathroom the wow it's been waiting for.

features

- » Height 2000
- » Anodised finish - The colour layer is fully integrated with the underlying aluminium substrate, so it cannot chip or peel. Making it more durable than powder coating.
- » Bracing bar sits flush with shower panel
- » Mershield Stayclear™
- » 8mm toughened glass

MERLYN[™] | Bath Screens

Innovation meets aesthetics

Innovative design and contemporary aesthetics bring this bathroom favourite to life. This modern collection has been created with the same superb materials and unrelenting attention to detail demonstrated across all MERLYN ranges.

180° inwards swing

The signature piece of this range, the Two Panel Hinged Bath Screen features a secure 180° inwards swing which means you can position the glass where you can comfortably deflect water into the bath and not on to the floor!

Rise and fall

All MERLYN Bath Screens have a rise and fall hinge to make it easier for you to open.

MERSHIELD™
STAYCLEAR

The Ultimate Leak-free Bath Screen Range

The SecureSeal by MERLYN has been designed with a leak free sealing arm which extends from the profile to create a complete seal between the bath and screen. When not in use the arm simply folds away back into the profile.

SecureSeal by MERLYN offers functional and easy to use designs to complement any bathroom space. With glass screen heights of 1500mm and 6mm glass, our SecureSeal by MERLYN range allows you to enjoy peace of mind in a leak free shower experience for years to come.

This range has been designed with the same superb materials and unrelenting attention to detail demonstrated across all MERLYN ranges.

How SecureSeal works

01.
Pull down arm
from storage
position.

02.
Extend screen and
locate panels.

03.
Fully extend and
clip into position
for a secure fit
and tight seal.

SecureSeal Lock

This is the SecureSeal Leak Free Sealing Arm

some unique features

MERLYN EASY-FIT

Replace your Bath Screen with Ease

An innovative way to replace your bath screen without the need to re-drill the wall. Simply connect your easy-fit to the existing holes in the wall and install your new bath screen.

NO DRILLING

SCAN FOR
EASY-FIT VIDEO

HydraSEAL

Exclusive to MERLYN Bath Screens

HydraSEAL acts as an extra barrier, sealing the gap between the seal and the pivot point where water can usually escape.

It contains a high density foam that compresses onto the bath screen to form a tight seal and restricts water escaping from this problem area.

Fitting Steps

Easy-Fit profile

01.
Remove the
old profile

02.
Position the
EASY-fit profile
on the wall

03.
Adjust the
brackets to align
to the existing
holes and fix in
position

HydraSEAL
creates a barrier
to restrict leaking!

EASY FIT and HydraSEAL are Available with following Bath Screens: MB1 / MB2 / MB3 / MB3A / MB3B / MB3C

MStone Tray

Design details

Graduated adjustable leg and easy-fit tray panel kit.

Adjustable leg system.

90mm fast flow waste, includes hair trap and chrome cover.

1. Top Acrylic capped ABS layer
2. Stone Resin
3. Bottom ABS layer (encapsulates the tray)

MSTONE

The MStone double skin stone resin tray is sleek and sophisticated in design. A highly engineered tray providing rigidity and strength, combined with a relatively low weight. MStone trays are ideal for 'low level' installation. Alternatively, you can raise your tray. In such cases you will need the MStone shower tray panel kit. MStone panel kits are available separately.

features

- » Double Skinned for added rigidity
- » 50mm high to achieve minimalist design
- » 135mm high including tray panel set
- » ABS capped acrylic sheets with anti-bacterial properties
- » Comes with 90mm fast flow waste
- » More than 30 sizes available
- » Available with tray panel kits
- » Shower tray lifetime guarantee
*covers manufacturing defects only

Product Information

We have produced this product section to help you with your purchasing decision. For further information please contact your local stockist, details of which can be found at www.merlynshowering.com

Product information

All products are manufactured in accordance with EN14428 and utilise toughened safety glass to EN 12150.

All shower trays are manufactured in accordance with EN14527.

All doors feature adjustable wall profiles to compensate for out-of-true walls and have micro adjustment features for fine tuning to obtain a perfect fit and operating action.

All enclosures, wetrooms and panels are Power Shower approved – will retain water under normal showering conditions.

Water retention is maintained in all products under normal showering conditions.

A selection of MERLYN enclosures are frameless in design. Spray/mist may escape therefore we would recommend use of these enclosures with tiled floors.

Opened cartons can not be returned. Returns carry a £40 box charge or £60 per unit where the sale is less than 30 days old. Returns over 30 days old will not be accepted.

All products are supplied complete with full installation instructions and the necessary fixings.

Check with your dealer for accurate matching of material samples. Product descriptions do not imply the use of precious or valuable materials.

Our policy of reviewing product design and development on a regular basis means MERLYN reserve the right to change product specifications and prices without notice.

Only shower enclosures, panels, Truestone shower trays and bath screens are covered by the Lifetime Guarantee. Please contact the MERLYN sales team for more details.

Glass shattering and parts subject to wear are not covered by the Lifetime Guarantee.

For full details on all product ranges please contact MERLYN Showering on 0808 1011429 or log onto www.merlynshowering.com.

Trays shown in this catalogue are for illustrative purposes only.

Images are for illustration purposes only.

The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all showering heads in the brochure is for illustrative purposes only.

All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon the company.

Cleaning

- » It is important to clean your MERLYN shower door and tray after every use. Wipe down all the glass and metal parts with a soft cloth.
- » Do not allow lime scale to build up in hard water areas.
- » Ensure that any residual water on the glass is removed after every use.
- » Clean the glass regularly using soapy water.
- » Do not use abrasive products on any surfaces.
- » Install the enclosure in a well ventilated area.

Information and maintenance

Always read the instructions on the packaging, chrome is vulnerable to acid attack and some strong household cleaners including strong disinfectants, denture cleaners, hair dyes, wine making chemicals and photographic chemicals may contain acid. These materials may have a varying effect on the surface from black spots/streaks (which cannot be removed) to pitting the surface. Contact with these materials should be avoided.

Important shower tray information

It is up to the designer or installer to ensure that the tray and enclosure combination is arranged in such a way that water retention meets the customers needs.

- » The waste has the capacity to carry away 29L/Min. High powered systems may exceed this. Please check with the manufacturer.
- » Please ensure that the shower head is not positioned directly over the waste as this may restrict water flow rate.
- » Please ensure that the colour and size of shower tray are as per your order before installation.
- » You must inspect the product thoroughly before installation. Fitting the product is acceptance of quality.
- » The trays are handmade from natural material. Please allow for height variances due to manufacturing tolerances.
- » For open ended shower screens please consult your installer.
- » Shower trays must be fitted as per the fitting instruction. Deviation from the pre installation checks or fitting installation will void the guarantee.
- » When wet, the surface of the majority of shower trays will show an increase in the potential for slipping. This is particularly the case when soap, shampoo, bath oil etc. are used. It is important that designers, installers and users are aware of this.

Important

Although shower door and enclosure sizes are related to tray sizes it is important to note that most shower trays are tiled down to the rim, often over an 'up-stand'. The finished installation space may be less than the nominal tray size. MERLYN shower units are made to suit this remaining space.

Tray Finish min-max

The Tray Finish applies when fitting a door and a tray. These are the minimum and maximum dimensions that a shower door or enclosure will fit using standard wall profiles.

Tray finish

To find the correct Tray Finish dimension:

In a recess: Measure from the finished, tiled wall to the opposite finished, tiled wall.

In a corner: Measure from the finished, tiled wall to the edge of the tray.

Note: If the wall/walls are leaning in, this will further reduce your Tray Finish.

Adjustment

This is the min and max adjustment of the actual enclosure. These are the adjustment dimensions of the actual door excluding the tray. Therefore, these are the dimensions to follow when installing a enclosure in a wetroom application without a tray.

The guide below may be helpful in taking measurements to determine the shower door or enclosure size required. Dimensions given in this publication are in millimetres, are approximate and may vary with adjustment. They are subject to change without notice.

Please note that when a tray is fitted it is essential that the tray is level before any doors or enclosures are fitted.

Recess Location

Take the measurements after the tray is installed and the walls are tiled.

Bath Screens

- » MERLYN Bath Screens are not designed to fit on baths with stepped fronts, roll top rims or integral soap dishes.
- » Fitting of screen on baths which have raised head rests or shapes is not recommended.
- » There must be no items causing obstruction with the seal and bath, as any of the above may cause leaks.
- » When choosing your Bath Screen, please ensure that if your bath has bath handles, they do not interfere with the bath rim area where your screen will be placed.
- » When choosing an in-swing or folding Bath Screen, please ensure your swing area is not interfering with any brassware or internal shower features. Similarly, when choosing an out-swing, please ensure the out-swing area is free from any obstructions.
- » It is recommended the shower head position is situated on the same wall to which the Bath Screen is fixed and in the centre of the shower area.

Extension Profiles

Mershield Stayclear

MERSHIELD™
STAYCLEAR

Without Mershield Stayclear™

NATURAL GLASS SURFACE

With Mershield Stayclear™

GLASS SURFACE WITH MERSHIELD STAYCLEAR™ COATING

Mershield Stayclear™ creates a smooth layer over the surface of natural glass, lowering surface friction, making it easier for water, soap and lime deposits to run off the glass.

MERLYN treats every product in the Series Collection with a special protective coating to ensure the glass maintains its sparkle. This comes as standard as part of our on-going commitment to service.

Mershield Stayclear™ acts as a protective coating which when applied to glass, helps the glass to remain shiny and new without the need for tiresome cleaning.

When cleaned correctly it helps prevent the build up of lime-scale and soap deposits making the shower glass "easy to clean". Please see tips for keeping the glass in pristine condition on page 150.

MERLYN Lifetime Guarantee

MERLYN is committed to developing products that meet the highest demands in terms of design, performance and quality. Due to our extreme confidence in our products and our unrelenting desire to deliver only the highest level of service, we have created the MERLYN Lifetime Guarantee.

MERLYN shower enclosures are crafted and engineered for a lifetime.

For more about our MERLYN Lifetime Guarantee, contact our MERLYN customer service team on **0808 1011 429**

REGISTER your new MERLYN product for the Lifetime Guarantee - log on to **www.merlynshowering.com** and fill in your information.

UKCA, CE & EN Information

The UKCA (UK Conformity Assessment) mark on MERLYN enclosures is the new standard marking for products on the market in Great Britain (England, Wales and Scotland). It is a declaration that the product complies with GB designated standards.

The CE markings on MERLYN enclosures is a declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation.

EU and GB legislation requires manufacturers to display either the UKCA mark for Great Britain and a CE mark for the EU and Northern Ireland on their product or packaging. It is an offence to place a product on the relevant market without a UKCA for Great Britain or CE marking for the EU market.

The manufacturer is legally responsible for ensuring that the product conforms to the requirements of both directives.

The European Commission thus refers to the CE marking as a “Passport” which allows products to be freely circulated within the EU single market. The UKCA marking allows products to move freely within Great Britain.

Often consumers will consider the UKCA and CE markings on a product as an indication of conformance to laid down minimum standards and therefore, a minimum level of safety which other products may lack. Both markings are often seen by consumers as a “Symbol of Safety.”

New GB, EU and NI label

MERLYN invests heavily in its product development and as such guarantees that its glass fully complies with regulations and is manufactured in accordance with BS EN 14428. The rigorous testing of the glass ensures that the endurance, stability and water retention criteria meet high industry standards.

ISO Certification

MERLYN has implemented an Integrated Management System comprising of Quality Management, Environmental Management and Occupational Health and Safety Management. An Integrated Management System ensures the seamless integration of several different standards into a common system that meets the requirements of each of these standards. These certifications are proof of MERLYN's credibility but also to instil confidence in our potential consumers that MERLYN will keep its promises.
